

Transaction Security

Protecting your identity, information, funds, and ownership.

PROTECTION AREAS

Identity Verification

We verify the identities of all buyers and sellers using secure technology and established procedures.

Information Collection

Sensitive personal information necessary for the closing is collected through a secure portal.

Funds & Wire Protection

We apply additional safeguards to wires, seller proceeds, payoffs, and changes to financial instructions, including a secure portal and bank verification callbacks.

HOW WE PROTECT

Secure Technology

We invest in technology, including CertifiD, Qualia, and extensive cyber-security controls to protect all aspects of real estate transactions.

Human Review

Our team watches for inconsistencies, unusual requests, last-minute changes, conflicting information, and other warning signs that may require additional verification.

TITLE INSURANCE PROTECTION

Title Insurance

Protection that continues after closing

Provides critical long-term protection for owners and lenders against covered title defects, ownership claims, liens, forgery, and other risks that could jeopardize their interest in the property.
